Deep Learning Project Installation Practice

From a github repository

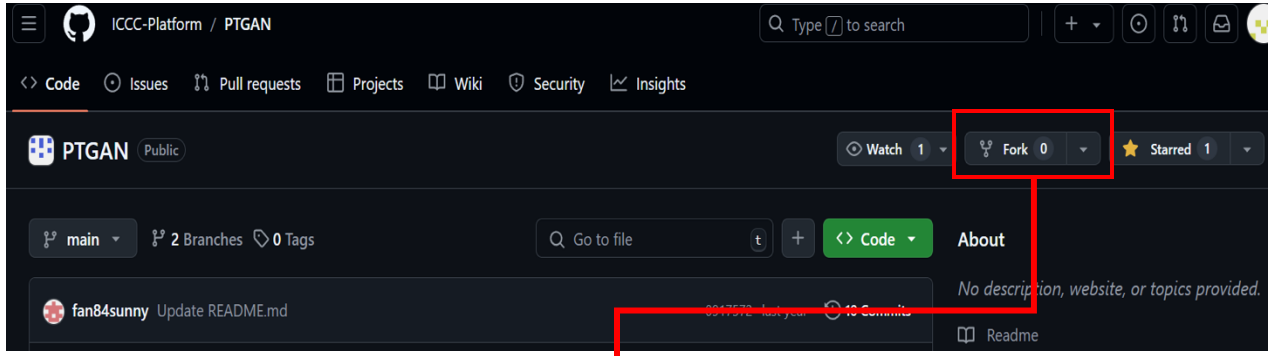

PTGAN star & fork

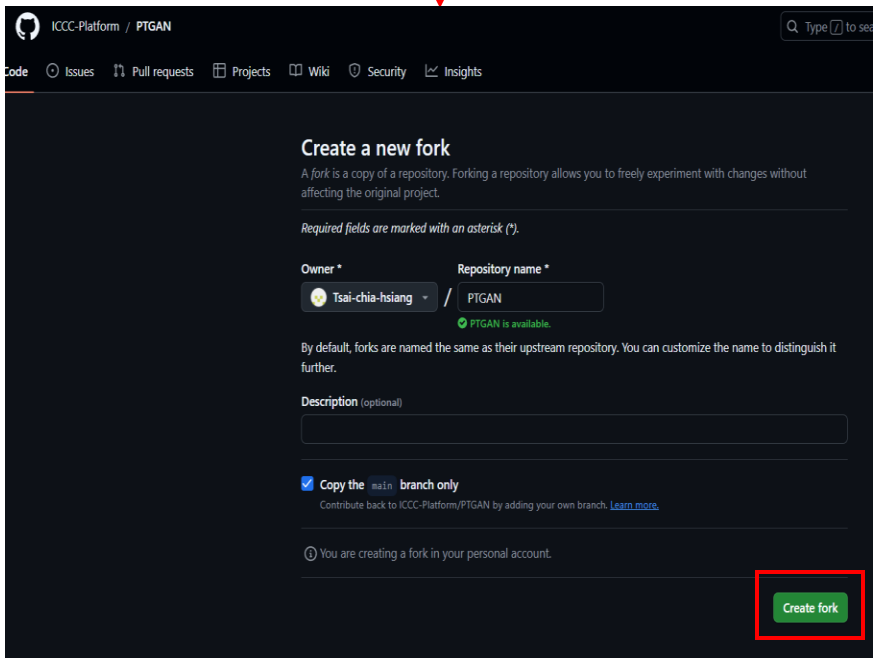

- ICCC-Platform/PTGAN (github.com)
  - https://github.com/ICCC-Platform/PTGAN.git
- Rare-Class-Enhancing-and-Prototype-Guided-Patch-Wise-Masking-for-Unsupervised-Domain-Adaptation
  - https://github.com/Tsai-chia-hsiang/Rare-Class-Enhancing-and-Prototype-Guided-Patch-Wise-Masking-for-Unsupervised-Domain-Adaptation
- Please use your own GitHub accounts to **star** and **fork** the repository.

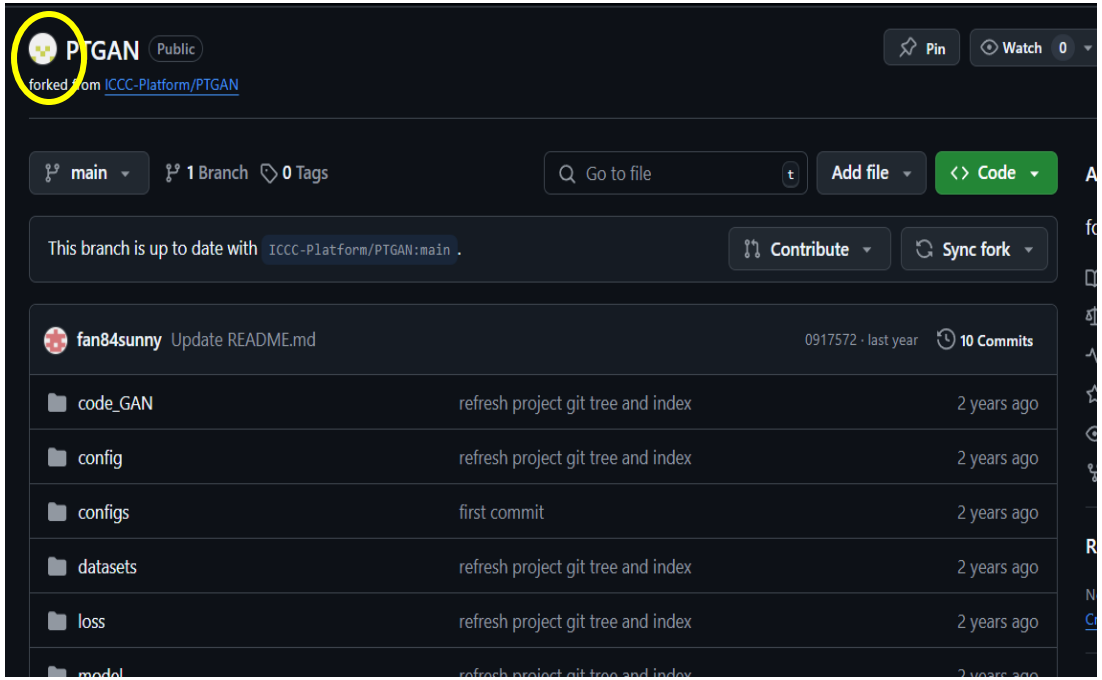

Task 1: Press the star (45%)

Task 2: Fork the repo (45%)

Task 3: Inference the project (10%)

- git clone -b webui https://github.com/ICCC-Platform/PTGAN.git

- Build environment:
  1. Create a python>3.10 python environment
  2. Install PyTorch followed PyTorch official website (torch, torchvision):
     - Start Locally | PyTorch
  3. pip install pillow gradio yacs
  4. pip install –r demo_requirements.txt

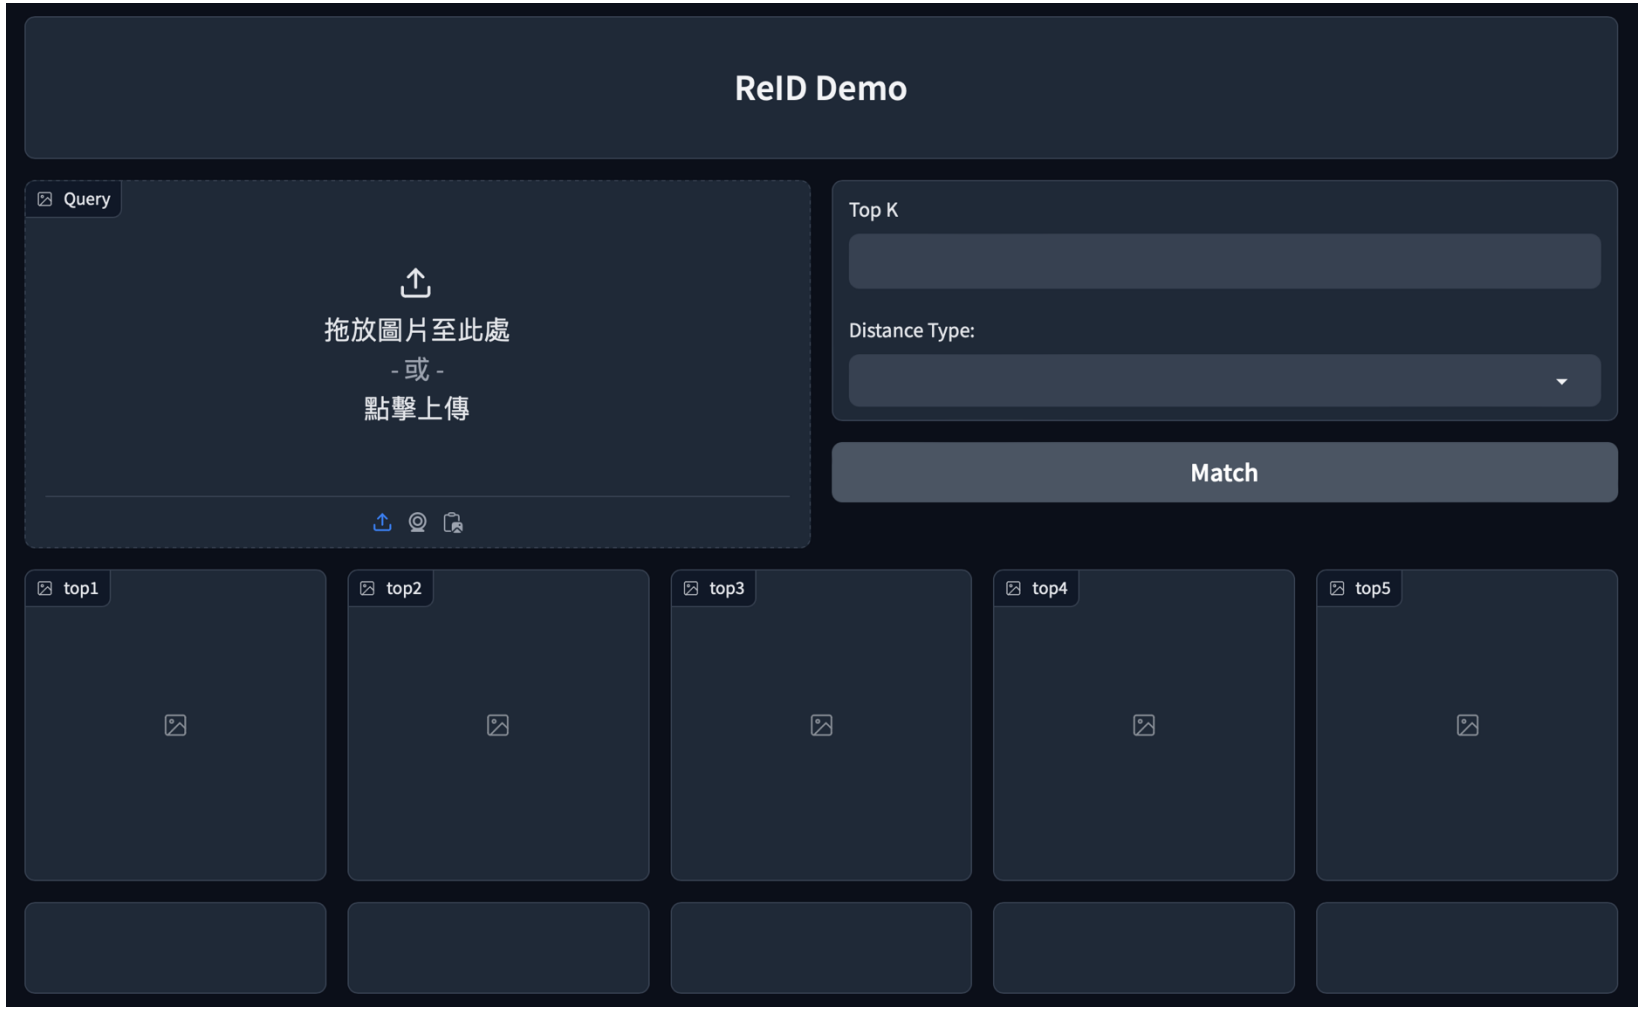

Task 3: Inference the project

- Download demo dataset:
  - https://drive.google.com/file/d/1aGiK-q8kIpUmeeyPBLulnTlmcQ6KaPwO/view?usp=drive_link
  - Replace the original dataset in “./PTGAN/VehicleData/”.

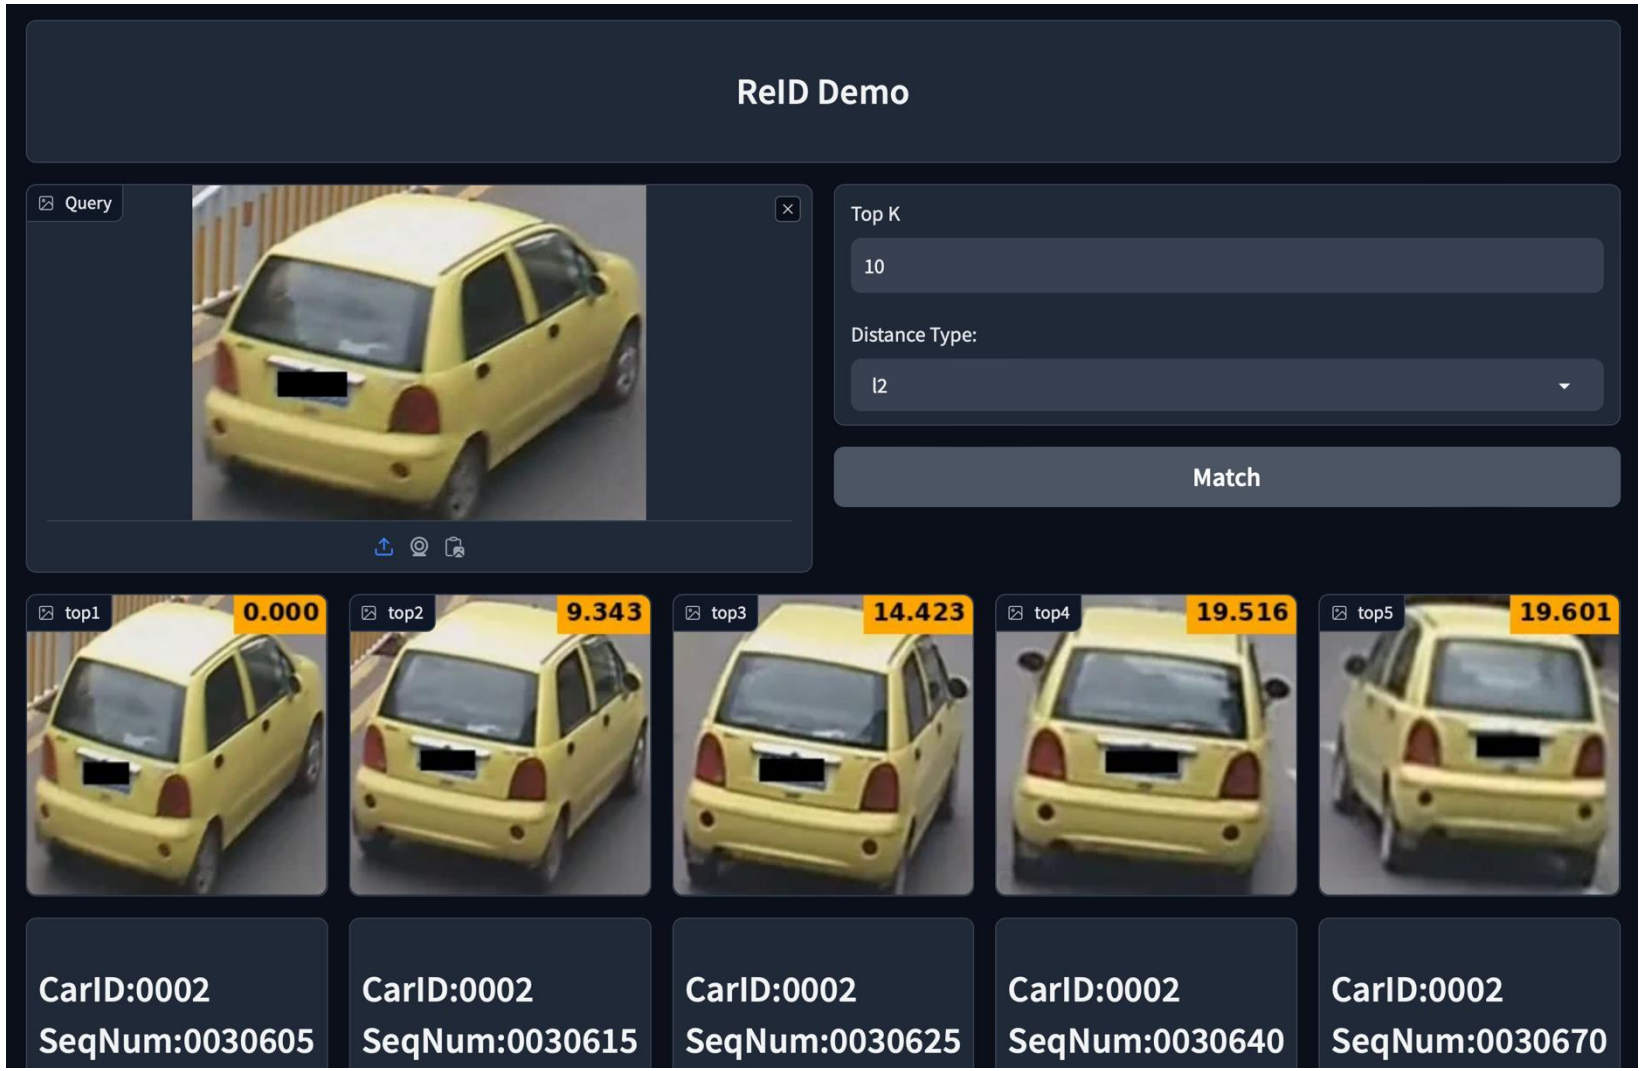

- Download model’s pth:
  - https://drive.google.com/file/d/1NHu_7e_616b9ySXU5xJgskiRWAHcMdRl/view?usp=drive_link
  - Put the pth file to “./checkpoints/stage2/transreid_256/v1/“

- Download precalculated pth:
  - https://drive.google.com/file/d/1U-_EoLLcPD-MFzXfJdEXSUAk57xRzDd3/view?usp=drivesdk
  - Replace the original data in “./precalculated”.

Task 3: Inference the project

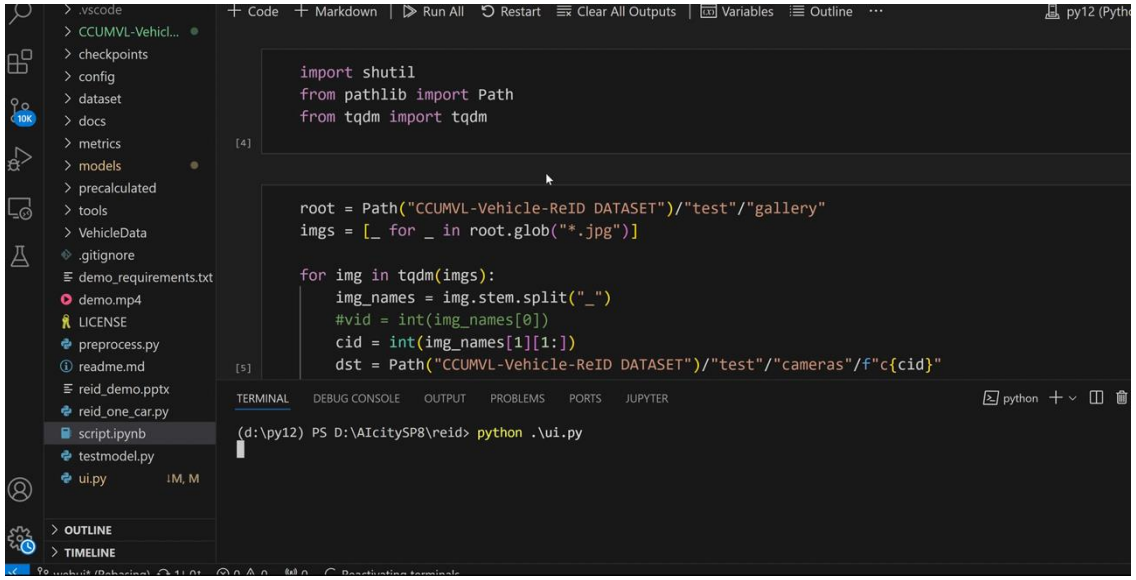

Task 3: Inference the project

Potential Issue while running

- If you want to run ui.py at **windows** platform, please notice:
  - In the Gradio web UI, the 'metrics' dropdown field doesn't work on the first attempt.
  - Please run it once (you will see an error), and then select the 'metrics' field again and run it a second time for it to function correctly.

Note

- Deadline: 2024.11.06 23:59
  - Late Policy: 20% deduction per day

- Submission:
  - One report (only PDF)
    - Five screenshots (star, fork, result)
    - Description of how you do that.
  - File name format: studentID_PTGAN.pdf
    - Ex: 613410001_PTGAN.pdf
